Take the Wheel to Your Future

Practical Car & Van Rental is a great opportunity for ambitious and determined individuals to build a profitable business with the support and guidance of a national brand. Our franchisees benefit from a well-known, established brand and the support of a large Head Office team providing support in every aspect of the business.

Practical Car & Van Rental is one of the largest vehicle rental companies in the UK and Northern Ireland. We service the demand for economical vehicle rental across the UK with a brand that customers know and trust. Franchisees offer a range of cars, vans, trucks and minibuses to both businesses and individuals. Our franchise package gives existing business owners the opportunity to add an extra revenue stream to their businesses, while benefiting from the Practical Car & Van Rental franchise backing and support.

Founded in 1984, we now have over 30 years' experience in the vehicle rental sector so our franchisees benefit from the knowledge we have gained through facing the challenges of building a business. Our web page was established in 1996 with a presence that now exceeds many of our global competitors which means our franchisees are the first port of call when customers search for car and van rental. With over 160 locations nationwide and a fleet of 3,000 vehicles, you can be assured that Practical Car & Van Rental is a diverse and innovative business.

What are the benefits of Practical Car & Van Rental?

- ✓ Savings on insurance and vehicle purchasing
- ✓ A Google presence exceeding our global competitors
- ✓ Bespoke rental software allowing franchisees to concentrate on customer service
- ✓ National advertising
- ✓ Online booking software

Our business model is straightforward and easy to incorporate into another existing business. Our insurance products, rental software and online booking facilities offer a bespoke rental resource that allows you to concentrate on one of our best assets; outstanding customer service. You will focus on building your business, knowing that you have the backing of a nationwide brand and a company with over 30 years' experience in our market. Our experience means that you don't need to have any experience of the rental and hire market.

A Growing Marketplace

There is a huge demand for the vehicle hire market in the UK. The UK short-term car and van hire market is worth over £2 billion (Mintel Research). There is a consistent high demand from businesses for car hire and from customers for car rentals. The hire market is driven by the convenience and reliability of having a vehicle for a short-term hire, with outstanding customer service, quality rental vehicles and highly competitive rates, we provide our franchisees with the training and support they need to offer our services.

In larger cities, many people commute into the city centre and so do not use a car on a daily basis. Many customers want to rent a car for special occasions or for holidays to avoid paying for the expenses such as tax, insurance and maintenance on a car that is not in use for the majority of the time. Hire companies such as Practical provide individuals and businesses with a way to rent a car whilst avoiding ownership costs.

Our franchisees take advantage of a growing and profitable market. They grow their businesses and fleet to suit their territory. As demand grows, they build their fleet. Practical is a scalable business that allows you to build a business as large or as small as you wish to meet your goals.

We have harnessed the demand for economical vehicle rental and turned it into a profitable business with over 30 years of experience.

"You're never fully ready to take on a business and it will always be a learning curve. Practical gave me all the skills I needed, I just had to learn how to use them."
